1 Introduction

This guide explains how to use i-Connect to send information about Local Government Pension Scheme (LGPS) members in your organisation to your pension fund.

i-Connect is an Internet application that helps to manage the transfer of employee information from payroll administrators to pensions administrators.

Throughout this guide, we refer to monthly processing; i-Connect can accept files from weekly, fortnightly, lunar (four-weekly) or monthly payrolls.

You can upload data about your employees in a file into i-Connect using a web browser. i-Connect then automatically identifies and sends information about new joiners, opt-outs and leavers, together with pay and contributions, to your pension fund. In addition, this process fulfils your record-keeping obligations.

1.1 FAQs

There is a FAQ section at the end of this guide with answers to some of things that occasionally go wrong when uploading and submitting a file.

1.2 Who to contact

If you have any questions about using i-Connect, please contact your pension fund.

2 Dashboard

After you have signed in, you will land on the 'Dashboard' screen, where you will be able to upload employee data to the pension fund:

3 Payroll selection

It is important to remember that the information displayed on the Dashboard relates only to the currently selected payroll. You can select a payroll using the dropdown list located in the upper left-hand corner of the i-Connect Dashboard:

4 Upload file

To upload a payroll extract file to i-Connect, click the 'Browse' button. Navigate to the file's location, then click the 'Upload File' button. i-Connect checks to make sure the correct file has been uploaded for that month:

Upload File
Please click on the 'Browse' button to choose a payroll file to upload. Use the explorer window to navigate to the file you wish to upload, click on it to select it and then select 'Open'. Click 'Upload File' to upload the file to i-Connect.
The next expected payroll period end date for a payroll file upload is: 31-07-2018
O:\Connect\Product\CQA\Release 2018.2\Test Files\JD\12 Months\Julv 2018.csv Browse
> Upload File

When the file is accepted for processing a 'Member Employment Checking' message will be displayed:

The Member Employment Checking process checks to see if any target system records have been deleted by the pension fund (please see section 5 for further details). If no records have been deleted the following message will be displayed:

Latest Upload A payroll file has been uploaded to i-Connect and is being processed. The detected events will be shown here when this is complete.

5 Member employment checking

Member employment checking looks for employees who have been deleted from the pension funds system, Altair. Members can be deleted for a number of reasons but, generally, this is because the pension fund has decided that a post change should not create a new record on their system.

The pension fund should send you a list of the old payroll references. These must be removed from the payroll extract file to avoid duplicate errors. The pension fund has also been instructed to ensure that all matching fields (NI number, payroll reference, date of birth, sex and surname), are updated on their system, to ensure that you can select the correct member when processing a re-match.

5.1 Member employment checking process

i-Connect checks Altair to make sure that all members processed on the last file submission are still present. If i-Connect finds that one or more members are missing from Altair, the following page is displayed:

Member Employment (Checking

i-Connect provides totals for the number of:

- Members on the payroll file
- Matched members
- Exact matches
- New starters
- Matched members deleted from Altair
- Number of deletions resolved

Select 'View Next Employment Conflict' to resolve any members who have been detected. The first deleted matched member conflict is displayed:

The 'Payroll Member' information is taken from the payroll extract file. The potential matches information is taken from Altair. If you agree with a potential match, select the relevant radio button and click the 'Confirm Member Match' button.

If you disagree with the potential matches displayed in the table, click the 'This member is a new starter / has opted out of the pension scheme' button. i-Connect will then create a new record on the pension funds system.

The following page will be displayed when all employment checking conflicts have been resolved if any new starters have been detected:

To complete the employment checking process and proceed with the payroll update, click the 'Confirm Employment Checking Complete' button.

To cancel the entire process, click the 'Cancel Employment Checking Process' button.

You can reset all employment conflicts and restart the resolution process by clicking the 'Reset All Employment Conflicts For Submission' button.

On confirmation of employment checking being complete, i-Connect compares this pay period extract file with last month's data to detect any changes. When the process completes, the 'Latest Upload Summary' page is displayed.

6 Latest Upload summary page

The Latest Upload page displays a table with totals for events detected by i-Connect for sending to the pension fund:

8 Submitting data to your pension fund

Click the 'Proceed' button to send the detected events to your pension fund, or click 'Cancel' to cancel the upload process.

When you click 'Proceed', the upload status changes from 'Pending' to 'Submitted' to indicate that i-Connect has started sending the events. The progress bars fill to indicate the progress of the upload and the totals change to display the number of pending, submitted and completed events (any failures or error totals will also be updated):

The upload process can take several minutes to several hours to complete, depending on the size of the payroll and the amount of activity on the i-Connect service.

You should log into i-Connect the following day to ensure all events have been processed correctly and that the status of the file upload has changed from 'Submitted' to 'Complete'. If the status is still displayed as 'Submitted', or is reported as 'Internal Error', contact the i-Connect service desk (<u>support@i-Connectdata.co.uk</u>).

8.1 Tolerance failures

Check the payroll extract file against the payroll system to ensure that the details are correct. If there is a problem with the file, you should return to the Dashboard, cancel the payroll upload and request a new payroll extract file from your payroll team/provider.

If the file is valid (the triggered tolerances are consistent with the payroll system), you should return to the Dashboard and click the Proceed button. i-Connect will then display the tolerance failures on a new page, and it will not be possible to proceed with the upload until you have ticked each failure to confirm that the tolerance checks will be ignored:

• Please review the tolerance failures on this submission and confirm each failure can be ignored by checking the boxes on this page. Once completed, click 'Proceed' to continue.

You must ensure that any ignored validation errors are corrected on the next pay period payroll extract file, unless you are processing the last pay period in the scheme year (e.g. 31/07/2019), in which case all validation errors should be corrected to ensure each member has a complete record of pay and contributions. See the FAQ section for a full list of validation errors.

8.4 Omitted members

Omitted members are employees who do not appear on the payroll extract file each payroll period, for example, zero-hour-contract employees, who are not included on one payroll submission, but may be included in future payroll submission.

Omitted member processing occurs automatically and prevents unnecessary new starter events from being identified and duplicate records being created on your funds target system. i-Connect will display a warning on the dashboard if any omitted members are detected:

Clicking the warning message to display a list of the omitted members:

Omitted Membe	ers and a second s		
lembers from previous s	ubmissions that have been omitted are describ	bed below.	
Please select those Mem	bers that you wish to permanently delete from	the payroll.	
NI Number	Payroll Reference	Last Active Period	Delete?
AL000001A	9950001	31-07-2018	
AL000002A	9950002	31-07-2018	

Omitted members are carried forward each pay period, until they re-appear on the payroll extract file, when normal processing is resumed.

If the omitted members are no longer active on the payroll system they can be deleted by ticking the 'Delete?' check box and clicking the 'Delete' button. The deletion option is only available when the submission status is 'Pending'.

Please note that you should notify the fund if you are intending to delete omitted members, as they may need additional information from you to process any leaver entitlements.

This section provides details of the possible error messages that can be displayed by i-Connect while the payroll extract file is uploaded, validated and the events detected.

9.1 File upload errors

I see the following message when uploading a file.	File errors were detected. The payroll period end date on the payroll file does not match the expected payroll period end date for the next submission.	i-Connect is expecting a file with a different
		payroll period end date to be uploaded. The previous month's file may have been uploaded instead of this month's file.
I see a message about data formatting errors in the file.	File errors were detected. Data formatting error found on line(s): 2.	There are issues with the structure of the file, for
		example, missing columns or one or more of the records in the file has an issue.
		Please contact i- Connect.
